DIGITAL  
LEADER**

**UN 2018 Theme: With Her: A Skilled GirlForce**

*International Day of Girl; 11th October 2018*

# EMPOWERING THE 50%

*Total population of women in the world*

Pakistan's leading sustainable social enterprise "Girl Digital Leader; focused on building opportunities for young women across the globe via digital enablement, employment, entrepreneurship and financial independency.

Girl Digital Leader is comprise of fully funded digital literacy, financial literacy & entrepreneurship bootcamp. The bootcamp is a 10 hours deliberately designed and focused curriculum based on capacity building training; alongside connecting them with a safe digital platform that empower young women to utilized it as their respective earning source. In addition to that "Girl Digital Leader" is determined to develop an influential gender specific, digitally aware cohort that intends to disrupt the world's digital space with female voices.

"Girl Digital Leader" is a comprehensive digital literacy program specifically targeting young and mid-career level women in order to bridge the vast technological gender gap and igniting their potential by providing them a home based earning source. The participation of women in technological revolution is integral to explore greatest opportunities and new possibilities to strengthen the industry as whole. Unlike just talking over the persistent gender gap and less women in STEM fields, we are taking deliberate actions to cope this staggering situation.

With this initiative we are solving an integral problem in the financial space; "banking the non-bankers" by empowering base of the pyramid earning less than \$5 - \$2 per day income group (base of the pyramid) , specifically WOMEN via financial literacy and independence.

## WEAK BARGAINING POWER

**3%** Women have bank accounts in Pakistan

**150** Rupees is per day wage of women working in informal sector

**320** Million women girls are living below the poverty line.

## LACK OF DIGITAL LITERACY

**20%** is the population of women in online world in Pakistan.

**12%** is the global internet user gender gap.

**600** Million girls will enter into world of work in 10 years without digital skills

## CYBER BULLY & HARASSMENT

**70%** of girls are afraid of posting pictures online because they could be misused.

**40%** of girls had been stalked & harrassed via messaging app.

**27%** of complaints National Response Center for Cyber Crime (NR3C) are by female complainants

# The Problem

Our Focus Area

# 10

Following the mission of United Nations #SDG5; to eradicate all kinds of discrimination against women, equal utilization of digital media & internet is INTEGRAL.

Till today, Pakistan's **75% - 80%** of online population is comprised of males
